Electric Vehicles at the University of California

Chargers, Research and more

Charlotte Strem,
Physical and Environmental Planning
University of California Office of the President
UC system - EV Charging stations

Approximately 164 Level 2 chargers all campuses except Berkeley

5 Level 3 Chargers
UC Sustainable Transportation Research Centers

- UCLA- Smart Grid Energy Research Center
- Irvine – Smart Grid Demonstration Project
- Riverside – College of Engineering, Center for Environmental Research and Technology
- Davis/Riverside – National Sustainability Transportation Center
- Berkeley – Transportation Sustainability Research Center
- Institute of Transportation Studies – multiple campuses
UC Sustainable Transportation Research Centers

- Solar charging of EV chargers at UCI
APEP ZEV•NET and PHEV Programs
CARB at UCR

- CARB relocating consolidated functions in Southern CA to UC Riverside.
- Opportunities for joint research with College of Engineering – Center for Environmental Research and Technology
